

Year 6: Term 3

Shining Bright, Aiming High

Miers Court Primary School

Term 3 2025

Welcome to Term 3. We hope you have had an enjoyable Christmas and New Year.

PE kits

Our PE lessons are on Tuesday (outdoor) and Wednesday (indoor) this term. Both sessions will be taught by an external PE coach.

Children should wear a **plain t-shirt, shorts, trousers, PE jumper, socks and trainers**. All jewellery and fitness watches will need to be removed for PE lessons.

While the weather is colder, children must wear jumpers as well as trousers.

Reading

We would like to encourage children to continue to read at home as much as possible and discuss what they have read. Your child should be bringing home a reading book every night, but they can also read their own books and record this in their reading records.

Homework

Thank you for supporting your child with their homework. It really helps us when it is in on time. We will be setting English and Maths homework on a Friday to be handed in by the following Wednesday.

.. and finally

Thank you for your continued support. If you have any concerns please ask us or send a message via Dojo.

Climate Change- Change our Future?

Our main focus for this term will be geography based. We will be looking at the features of the polar regions and comparing them with the UK.

We will study the animals that live in these regions and how they have adapted to the climate. We will look at explorers and how travel and equipment has changed.

Daily times

08:35- start of day
15:25 - end of day

Friday:

08:35 -start of day
13:10 - end of day
(unless staying for Friday Club)

Maths

In Maths, we will be looking at a variety of topics, including revising and extending understanding of basic skills and developing problem solving skills.

English

In English, we will continue to develop reading and writing skills. The majority of writing will be topic linked, covering a range of genres.

Science

In Science, our topic is 'Living things and their habitats'. We will be describing how living things can be classified based on similarities and differences and giving reasons for these.

Impact of absence

One of our aims in Year 6 is to support the children in developing skills needed for secondary school — independence, being organised and taking responsibility for actions.

If children miss a considerable amount of time from school, they will miss: revision of key skills to prepare for SATs, planning time for writing tasks and being exposed to a range of challenging texts.

The Year 6 team
