

Year 1 Term 1 – Termly topic homework grid

In addition to the weekly core homework set by teachers, please choose any of these activities to complete over the course of the term and return to school with your name attached. A minimum of one piece per term is expected, but children can do as many as they like and bring in throughout the term.

Write about your favourite day in the summer holidays- where did you go? What did you do? Who did you go with? 	Find out about Street Art in the UK. Can you copy a piece or can you create your own design? 	Talk to an adult about how you are feeling and what strategies you can use to get back to being happy if you need to. 
Choose a UK animal to research. Where does it live? What does it eat? What does it look like? Is it a mammal, bird, fish, reptile, amphibian or insect? You can present this learning in any way you wish. 	We are learning about the UK- can you draw/ write about the four countries, share photos of any visits you have been on, make a flag or find out the capital city of each country? 	Have you used a laptop or a computer before? Use the keyboard to type your name or type a sentence about yourself. 
Revisit the HRSWs from Year R- we need to remember these! Practise recognising and remembering them, and also try to remember how to spell them. You could stick post it notes around the house, build them with magnetic letters, practise writing them on a whiteboard etc. 	Practise, Practise, Practise!! Number bonds to 10 Doubles to 10 Writing numerals the correct way round. Basic adding and taking away using resources to help you. 	Commit to a job or responsibility at home for the term, this could be dusting, cleaning the windows, setting the table for dinner, helping with the washing. We love to know you are being helpful at home! 

You are also welcome to upload any photos to your child's portfolio on Dojo.
